

Application for General Practitioner Position

Dear Hiring Manager,

I am a DHA-licensed and GMC (UK)-registered General Practitioner with MRCP Part 1 and Part 2, PLAB, and several years of clinical experience in the UAE across primary care, chronic disease management, acute care, preventive medicine, and home healthcare. Currently based in Dubai and holding a UAE Golden Visa, I am immediately available to join and keen to contribute to a high-quality healthcare organisation.

I currently practise as a General Practitioner at Platinum Healthcare in Al Qusais, managing patients across all age groups and providing comprehensive assessment, diagnosis, treatment, follow-up, preventive care, vaccinations, and specialist referrals. I have particular experience managing diabetes, hypertension, asthma, and other acute and chronic conditions, while also handling diagnostic investigations, EMR documentation, insurance authorisations, and claims. Through proactive communication and structured care planning, I contributed to a 20% improvement in patient satisfaction and follow-up adherence while managing 10–12 consultations daily.

Alongside this role, I serve as Medical Director at Chris One Point Homecare, overseeing clinical operations, multidisciplinary team performance, clinical protocols, complex case management, quality audits, and regulatory compliance. This leadership experience has strengthened my ability to deliver safe, patient-centred care while maintaining high standards of clinical governance and operational efficiency.

Previously, I spent three years as a General Practitioner at Noor Medical Centre, managing a broad spectrum of acute and chronic presentations and delivering evidence-based treatment and patient education. My clinical foundation was established at Jinnah Postgraduate Medical Centre, with rotations in Accident & Emergency, General Medicine, General Surgery, and Anaesthesia/ICU.

I hold an MBBS from Jinnah Sindh Medical University and have completed ACLS, Infection Prevention and Control, Cardiology in Primary Care, and Fellowship in Diabetes training. I am committed to evidence-based medicine, effective patient communication, preventive healthcare, accurate clinical documentation, and continuous professional development.

I would welcome the opportunity to bring my clinical expertise, UAE healthcare experience, postgraduate qualifications, and leadership capabilities to your organisation. I am available for an interview at your convenience and can join immediately.

Thank you for your consideration.

Sincerely,

Dr. Ramsha Batool

General Practitioner | DHA Licensed | GMC (UK) Registered | MRCP Part 1 & Part 2
